

# Eligibility & Enrollment Services

*Bolster Medicaid E&E revenue through maximum patient engagement.*

ASPIRION 

## Why You Should Outsource Your Eligibility & Enrollment Services

The number of uninsured Americans has been rising since 2016—and for every uninsured patient a hospital treats, the uncompensated care costs the facility almost \$3,000.

## Common Barriers to Medicaid Eligibility & Enrollment:

- Frequently changing Medicaid/assistance guidelines
- Lack of sufficient staff for patient screening
- Medicaid application process often slow, requiring consistent and timely follow up
- Increasing numbers of self-pay patients

## The Aspiron Difference

Aspiron works with hospitals—both on-site and remotely—to pursue every avenue for reimbursement, from providing supplemental staff members to completing a dedicated post-discharge follow-up process.

## When you partner with Aspiron, you get the following benefits:

- Flexible staffing model, providing coverage in hospitals of all sizes and in all departments, including Emergency
- Effective means of patient contact to gain cooperation
- Continued investment in technology-enabled solutions to maximize results, mobility and patient satisfaction
- Seamless implementation and comprehensive training
- Experts in E&E program qualifications—from Medicaid to Crime Victims Assistance to Disability
- Team of staff trained in customer service and patient satisfaction
- Consistently high success rates

## Maximize Your Eligibility & Enrollment Revenue

Our E&E service line is specifically designed to suit our clients' individual needs, enabling us to achieve the highest success rates in the industry. Using their in-depth knowledge and training, our experts focus solely on identifying revenue sources. [Reach out to our team to maximize your Medicaid eligibility & enrollment.](#)
