

Veterans' Affairs & Tricare Claims Processing

Alleviate VA process challenges and increase your collections with Aspirion.

When the Mission Act of 2018 enabled veterans to receive care at non-VA facilities, community hospitals were inundated with increased traffic. Unfortunately, without a clear-cut avenue for payment, facilities today are struggling to collect on their growing numbers of VA claims.

Should You Outsource Your VA Claims?

The process for VA reimbursement is tedious, time-intensive, and complicated—and Tricare claims pose a similar challenge as rules and regulations continue to evolve.

Common VA Challenges:

- Confusion on patient eligibility
- Uncertainty on where to submit claims
- Difficult follow-up processes
- Limited denial information

As a result, many health systems simply write off VA/Tricare claims as losses—but Aspirion can eliminate those challenges.
